SUMMARY

Java Full Stack Developer with 2.6 **years** of experience in designing, developing, and deploying scalable web applications using **Java, HTML5,CSS3,JavaScript, JDBC, Spring Boot, Hibernate, REST APIs, React.js**, and relational databases MySQL. Proficient in both frontend and backend development, API integration, and cloud deployment. Strong problem-solving skills with a focus on delivering high-quality, user-friendly solutions.

EDUCATION

Higher Secondary in Computer Sceince, Joseph Matriculation Higher Secondary School.
Jun '15 — Apr '17
Colachal, India
- Studied core subjects including **Computer Science, Mathematics, Physics, And Chemistry**

B.E in Computer Science, Stella Mary's College Of Engineering (GPA: 7.5)
Sep '17 — May '21
Nagercoil, India
- Participated in inter-college hackathons and coding competitions. Organized cultural and technical fests as part of the student council

EXPERIENCE

Full Stack Java Engineer
Jul '22 — Present
Femtosoft technologies
chennai, India

As a Full Stack Java Developer, you will be responsible for designing, developing, and maintaining scalable web applications. You will work across the entire software development lifecycle – from front-end user interface design to back-end server-side logic and database management. The role requires hands-on expertise in Java technologies, modern frameworks, and front-end development to deliver high-performance, secure, and user-friendly applications.

Design, develop, and maintain full-stack applications using **Java, Spring Boot, React.js, and related technologies**.

Build responsive, dynamic, and intuitive user interfaces with **HTML, CSS, and JavaScript**.

Implement robust back-end services and REST APIs using **Spring Boot, JDBC, and Hibernate**.

Work with relational databases such as **Oracle and MySQL**, including schema design, optimization, and query writing.

Integrate front-end and back-end systems seamlessly for efficient communication.

Debug, test, and optimize applications for performance, security, and scalability.

Collaborate with cross-functional teams including UI/UX, QA, and DevOps.

Participate in code reviews, requirement analysis, and technical discussions.

Stay updated with emerging technologies and best practices in full-stack development.

Technical Skills

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js

Back-End: Core Java, Spring Boot, RESTful APIs

Database: Oracle, MySQL, JDBC, Hibernate ORM

.

PROJECTS

Online Food Ordering System
Jan '25 — Mar '25
India
- Developed web application using Spring Boot, MySQL

- Admin panel for managing categories, food items, and prices.
- Integrated image upload functionality and implemented authentication/authorization.
- Created a complete REST API backend for an e-commerce platform.
- Used Spring Data JPA for database interactions and postman for testing

E-Commerce Web Application

Apr '25 — May '25
India

- Tech Stack : Java, HTML5, CSS3, JavaScript, Spring Boot, Spring Security, Hibernate, MySQL, REST APIs.

- Developed a fully functional E-Commerce platform that allows users to browse, search, and purchase products. Admin users can manage product listings, inventory and orders through a secure dashboard.
- Designed and implemented RESTful APIs using Spring Boot and Spring MVC for product, cart, order and user modules.
- Integrated MySQL database using Hibernate/JPA for persistent storage of user data , product details, and transactions.
- Implemented authentication and with Spring Security authorization
- Developed frontend UI with HTML, CSS, and JavaScript ensuring responsive design using Bootstrap.
- Built admin panel for managing product catalog, orders, and user roles.
- Integrated payment gateway simulation for secure checkouts.
- Used Maven for project build and Git for version control
- Followed MVC architecture, modular coding, and applied design patterns to ensure scalability and maintainability.
- FEATURES :
- User registration and login
- Product browsing and search
- Shopping cart and order checkout.
- Admin dashboard for product and order management.
- Role-based access control.

SKILLS

Programming Languages;   Proficiency in JAVA
Front End   HTML, CSS, JavaScript, ReactJS
Middleware Database   MySQL, Oracle, JDBC
Back End   Spring Boot, Hibernate
Development Tools   Eclipse, VS Code

SOFT SKILLS

- Creativity and Time Management.
- Willingness to learn and adapt to new technologies
- Good communication and teamwork skills
- Strong Problem-Solving and Analytical Thinking.
- Team player with a collaborative mindset

LANGUAGES

English, Tamil, Malayalam
